

TEXTBOOK BUNDLE LIST INFORMATION

Below is the list of the individual components of the textbook bundles used by Vance-Granville Community College. The bundles are listed in order by course. Only courses that use a bundle are listed. All textbook information can be found in WebAdvisor or in the Spring 2012 Book List located on the bookstore page.

The bundle information is separated of by a dark line across the page. Any book that contains a CD, code, or other information may be listed as a “bundle”; however, these parts may not always be available separately. If items are not listed under the COMPONENTS: section, then they cannot be purchased separately.

Please make certain that should you choose to purchase your books from another source that the ISBN numbers match exactly. Just because the books “look alike” does not mean it is the same book. Only the ISBN number guarantees the same book.

The access codes listed on the bundle list are available only from the publisher (vendor). The publisher is listed in bold beside the course number for each class. The ISBN number for the access codes must also match exactly.

The VGCC bookstore cannot be responsible for any books or access codes purchased from another source, even from the publisher.
