

VANCE-GRANVILLE COMMUNITY COLLEGE  
Radiography Program

ADDENDA

To: Junior Students, Class of 2013

From: Mr. Collin Bailey-Clinical Coordinator, Radiography

Date: October 31, 2011

**Re: Headwork Substitutions**

Due to the advancement of imaging capabilities of the specialty modalities (CT, MRI) there has been a reduction of skull, facial, and sinus imaging in diagnostic radiography. Therefore, any type of headwork exam may be counted as a Skull or Sinus exam. The technologist will write in the exact exam as written on the request and then place the exam it will be counted as in parenthesis (ex: orbits (skull)).
