

HOBET Admissions Test **SAMPLE**

The HOBET test contains the following six subtest areas:

Essential Math Skills **30 minutes**

There are math and algebra problems that will involve addition, subtraction, multiplication, division, decimals, fractions, percentages, and ratio formulas. CALCULATORS ARE NOT PERMITTED WHEN TAKING THE HOBET.

Stressful Situations **12 minutes**

Questions will be asked to produce a self-perceived stress profile for each examinee in five important areas of personal coping: family life, social life, the work place, academic adequacy, and time/money.

Learning Styles **20 minutes**

This section will use questions to calculate your learning style so your instructors can adapt the learning environment to benefit you and the group.

Reading Rate **1 minute**

This will estimate the words per minute that you read when placed in a test or study situation.

Reading Comprehension **30 minutes**

This will evaluate your reading comprehension level for science-related material. Good reading comprehension is essential for this program.

Test Taking Skills **20 minutes**

This will measure your ability to utilize test taking strategies when taking objective, essay, and standardized examinations.

Total Test Time: 1 hour 53 minutes
